

SAGE MAS 90/200

Introducing the Point of Sale Maestro The Complete Business Management Solution to Process POS Transactions

Information Integration Group, Inc. (IIG) is a leading provider of Industry Specific Point of Sale for small to mid-sized companies since 1991.

IIG's Point of Sale provides the additional functionality and streamlined entry of transactions needed to process POS transactions using the Sage MAS90 and MAS200 Sales Order processing module.

- Integration with Credit Card / Check Swipe readers
- Opening of cash drawer based on the payment type entered
- Allowing users to enter up to 4 payment types per transaction; supported is the use of Debit cards as a form of payment
- Displaying of change due
- Capturing of the customer Signature
- Printing of transaction receipt
- Support for a cashier register; payments can be applied to combination of sales orders, invoices or updated as payment on account
- Optionally, orders can be entered on the hand held device, cashier invoices the entered transaction and enters the payment information for the entered transaction
- Track and reconciliation transactions by Cash Register

Additional functionality is MAS90/200 to streamline entry of transactions:

- Transferring of program control to the lines tab after entry of the customer number
- Auto incrementing of the invoice number upon completing each transaction
- Auto printing the receipt upon completion of the invoice transaction
- Loading of the salesperson code based on the MAS90/200 user code
- Setting default values for warehouse, tax, ship via, invoice date, invoice type, based on the workstation
- Setting quantity ordered to one; quantity ordered can also be auto incremented as the item is scanned repeatedly by the user
- Ability to apply check or cash deposits to sales orders, invoices or to customer account
