Slab Processing Vertical Solutions

## Introducing the Process Manufacturing Maestro The Complete Batch Manufacturing Management Solution

Information Integration Group, Inc. (IIG) is a leading provider of Industry Specific Slab Processing for small to mid-sized companies since 1991.

IIG's Slab and Floor Covering Maestro provides the additional functionality and streamlined entry of transactions needed to process slab transactions using Sage MAS90 and 200 Distribution modules.

### Complete Business Management Solution for tracking slab inventory

- Slab Processing operations from generation of quotes, to flexible pricing and billing, to viewing inventory availability, to streamlined warehouse automation.
- Complete software for tracking of quantities of each slab and its dimensions. Users are able to view number of slabs by size; total square footage (meters) by size (dimensions); and total footage of slab available.
- Ability to purchase and sell slabs by slab or square foot (meter).
- Provides for a fully integrated software solution across all applications, allowing users to view number of slabs, each slabs size and total square footage available.
- Allows for tracking of inventory in-transit and entry of orders against inventory in transit by integrating with IIG Container Tracking Enhancement (ALC).
- Allows for tracking of bar-coded slabs by integrating with IIG's RF Maestro.
- Allows for entry of slab adjustments during Invoice Data Entry or using Slab Adjustment program.

**Supported Platform**  
• Sage MAS 90/200 ERP
