

## RENTAL ORDER PROCESSING

Streamlines your operations from generation of both quotes and rental contracts in Sales Orders, CRM, Customer Portal, Service Orders or Mobile App. Track time-based availability and multiple reservation of a S/N. Process rental shipments & returns using bar code scanners or RFID. Using optional features, setup for each equipment check in/out inspections and scheduled services, track equipment ROI (by tracking purchase cost, AP bills paid for the equipment, rental revenue and expenses for repairs and maintenance), schedule crew to operate machinery, and generate rental contracts by scanning equipment in the warehouse (showroom / rental yard).

## **COMPLETE RENTAL MANAGEMENT SOFTWARE**

- Flexible Invoicing Options. Generate invoices upfront, periodically, upon return, set day of the month, set billing schedule, or project's billing terms. Exclude billing for holidays, weekends, or hiatus for billing by customer.
- Time Based Availability. View quantity available, on rental orders and on rent by item and drill down to orders to ship or return from rental dashboard.
- Hourly and Daily Dashboards. View status of returns and shipments on dashboard with ability to view and adjust time by function - setup, put-away, stage, tear down, drive time, check in & check-out.
- User Defined Bill Code. Price rentals based on user defined bill codes –
  daily, weekly, monthly, contractor month or based on hours / meter used. Auto
  calculate best price based on customer setting and rental period. Manage
  hourly rental billing based on time of the day rented and returned.
- Inspections and Scheduled Services. Ability to define required inspections (checklist) by rental equipment for rentals returned and to generate a repair document based on inspection results and set scheduled services settings.
- Scan Shipments and Returns (Bar Code /RFID). Track products staged/shipped by box and boxes loaded in each truck. Track time to stage and ship products by job.
- CPQ Processing. Streamlined configuring and pricing of jobs. Allocation of equipment and creation of quotes and rental contracts.

## **KEY BENEFITS**

#### **MORE OPPORTUNITIES**

- Offers a complete solution using Sales, Crewing, Service, CRM, Project Accounting, Fixed Asset, Payroll and Financials in a cloud based multi-company and multicurrency platform
- Track status of each rental equipment, track inspection results and repair expenses for each equipment
- Generate rental orders from Field Service work orders.
   Process rentals on Field Service mobile app
- Generate work orders for repairs and scheduled services

## **AUTO GENERATE INVOICES**

- Auto generate invoices based on rental contract's billing term
- Show details of charges on the invoice – rate for month, week, day, metered usage, S/N, etc.

## PREPARE FOR THE DAY

- Use dashboard to view / drill down to orders to ship, invoice or to be returned for the entered date range.
- Support crew clock in/out and crew manager approval of timecards for field service orders, staging of jobs, and production work orders. Load data captured into Payroll.
