Installation Instructions and Cautions

PLEASE NOTE: MAS 90 must already be installed on your system before installing any IIG enhancement. If not already done, perform your MAS 90 installation and setup now; then allow any updating to be accomplished automatically. Once MAS 90 installation and file updating is complete, you may install your IIG enhancement product by following the procedure below.

Wait! Before You Install – Do You Use CUSTOM OFFICE?

THIS IS AN IMPORTANT CAUTION: If you have Custom Office installed, **and** if you have modified any MAS 90 screens, you must run **Customizer Update** after you do an enhancement installation.

But wait! BEFORE you run **Customizer Update**, it is very important that you **print all of your tab lists**. Running **Customizer Update** will clear all Tab settings; your printed tab list will help you to reset your Tabs in Customizer Update. **Custom Office** is installed on your system if there is an asterisk in the title bar of some of the screens. The asterisk indicates that the screen has been changed.

An **asterisk** in a window's title bar indicates that the screen has been modified. This means that **Custom Office** is installed.

Follow all the instructions on this page before you run **Customizer Update!**

Registering IIG products

IIG Enhancement should be registered to be able to use it. If registration is not performed, the enhancement will work in a demo mode for a limited time period. The registration can be still done during the demo period.

Select the **IIG Product Registration** program under the **Library Master Setup** menu of the MAS 90.

If this option is not listed under the Library Master Setup menu, go to the main menu, and select **Run** from the **File** menu. Type in SVIIGR and click **OK**.

Enhancement	Level	Release Date	Serial Number	Unlocking Key
IIG Enhancement Name	4.00	07/19/04	AAAAAAAAAAAAAAAAAA	BBBBBB

Enter **Serial Number** and **Unlocking Key** provided by IIG, and click **OK**.

If multiple IIG Enhancements are installed, Serial Numbers and Unlocking Keys should be entered for each enhancement.

IIG Registration Form can be printed by using the **Print Registration Form** button.

Consignment Merchandise Proc. 4.05

Introduction

IIG has developed a **Consignment Merchandise Processing** enhancement to enable users to track Consignment Merchandise. The program provides Billing Notations and Vendor Returns in addition to Consignment Orders and Invoices.

Also, the enhancement includes **Bill To Customer** functionality.

The **Require Multiple Warehouses** option should be selected in the **Inventory Management Options**.

The enhancement supports **Item** and **Customer Delete/Renumber/Merge**.

Audit information

During the **Daily Sales Reports/Updates**, the Consignment information is written in an Audit text file, in the ..\MAS90\SOA folder.

The new information is always appended to the corresponding existing Audit file. If there is no such file, it is created.

Starting with the version 4.05, the Audit information is stored by Company, and the filename of the text file for each company is formed as *Audit_<CompanyName>.txt* (for example, *Audit_ABC.txt* or *Audit_XYZ.txt*).

The *Audit.txt* file storing information for all Companies in the 3.x versions, is not be transferred during Data Migration from 3.x to 4.05.

Setup

Customer Maintenance

Select the **Customer Maintenance** program in the **Accounts Receivable Main** menu.

The screenshot shows the 'Customer Maintenance' window for customer '01-SHEPARD' (Shepard Motorworks). The 'Main' tab is active, displaying various fields for customer information. The 'A/R Bill To Cust. Number' is '01-HILLSB' and the 'CMO Whse' is '002 WEST WAREHOUSE'. The address is '2215 English Ave', ZIP Code is '53151', City is 'Milwaukee', and State is 'WI'. The primary contact is 'ALAN SHEPA' (Alan Shepard) with terms '02 2% Ten Days, Net 30 Days'. The salesperson is '0200 Shelly Westland'. The ship code is 'UPS BLUE'. The credit limit is '.00'. The window includes navigation buttons (Back, Forward, etc.), 'Accept', 'Cancel', and 'Delete' buttons, and a status bar at the bottom showing 'ABC' and '4/7/2005'.

The enhancement has added the **A/R Bill To Customer Number** and **CMO Warehouse** fields on the **Main** tab.

Enter the number of the customer to be billed in the **A/R Bill To Customer Number** field.

Enter the warehouse code to be used as the default when entering CMO Orders in the **CMO Warehouse** field.

The **Bill To Customer** information is included in the **Customer Listing** printout.

Consignment Merchandise Proc. 4.05

Sales Order Options

New options have been added for **Bill To Customer** processing in the **Sales Order Options**, affecting both **Sales Order** and **Accounts Receivable** modules.

The screenshot shows the 'Sales Order Options' dialog box with the following settings:

- Default Warehouse: 001 (EAST WAREHOUSE)
- Use Alt Warehouse for Out of Stock Items:
- Current Sales Order Calendar Year: 2005
- Current Sales Order Period: 05
- Allow Customer Memo Inquiry from Entry: Yes
- Credit Limit Margin to Print Warning: .00
- Split Commissions Between Salespersons:
- Use Shipping Code to Calculate Freight: Actual
- Allow Addition of New Items During Data Entry:
- Allow Discount Rate by Detail Line:
- Password Required to Override Price: (empty)
- Check for Quantity on Hand During Data Entry:
- Default Special Items to Drop Ship:
- Next Automatic Sales Order Number: 0000187
- Next Automatic Invoice/Shipping Number: 0100081
- Customer To Update: Bill To and Ship To

- Use 'Bill To' Cust for Divisional Account Substitution:

Set **Customer To Update** to **Bill To** if you want the postings updated to Bill To Customer only, or to **Bill To and Ship To**, if you want the postings done to both Bill To and Ship To Customers.

If the **Bill To and Ship To** is selected, you can choose to set **Salesperson Commission** to **Bill To Customer** or **Ship To Customers**.

Check the **Use Bill To Cust for Divisional Account Substitution** box if you want to use the accounts set for the Division of the Bill To Customer.

Consignment Merchandise Proc. 4.05

On the **Forms** tab of the **Sales Order Options** screen, Information Integration Group, Inc. has added the **Next Automatic Numbers** fields for **CM Order**, **CM Invoice**, **Billing Notation**, and **Vendor Return**.

The number of days can be entered in the **Days to Retain Consignment Detail** field.

The screenshot shows the 'Sales Order Options' window with the 'Forms' tab selected. The 'Consignment Merchandise Processing Setup' section contains the following fields:

Field Name	Value
Next Automatic CM Order Number	ORD010
Next Automatic CM Invoice Number	INV037
Next Automatic Billing Notation Number	BLN013
Next Automatic Vendor Return Number	RTN006
Days to Retain Consignment Detail	000
Sales Order Full Distribution Required	<input type="checkbox"/>

At the bottom of the window, there are 'Accept' and 'Cancel' buttons, along with a status bar showing 'ABC' and '4/7/2005'.

Check the **Sales Order Full Distribution Required** box to require full distribution for all lines for accepting the order. If this check box is cleared, orders can be accepted without distributing all the lines. This option is effective for both Sales and Consignment Orders (SO and CMO).

Customer Consignment Report

The **Customer Consignment Report** program, under the **Accounts Receivable Reports** menu, is used to display and print a report of customers who have assigned consignment items.

The screenshot shows a dialog box titled "Customer Consignment Report" with a standard Windows window control bar. The dialog is divided into several sections:

- Selection:** A table with columns for "All", "Starting", and "Ending".
- Customer Number:** A checked checkbox, a text box containing "00-", and a text box containing "99-////////".
- Item Number:** A checked checkbox, an empty text box, and a text box containing "//////////".
- Product Line:** A checked checkbox and an empty text box.
- Options:** Three unchecked checkboxes: "Print Zero Quantities", "Print Lot/Serial Numbers", and "Delete Zero Quantities".
- Printer:** A dropdown menu showing "\\NIGSERVER\HP LaserJet 1100 (MS)".
- Buttons:** "Print", "Preview", and "Printer Setup..." buttons.
- Status Bar:** Shows "ABC" and "4/7/2005".

Ranges of **Customers**, **Items**, and **Product Lines** can be selected for printing in the report.

Check the **Print Zero Quantities** box to include the items with zero quantities in the report.

Check the **Print Lot/Serial Numbers** box to include the Lot/Serial information in the report.

Check the **Delete Zero Quantities** to make the program delete the invoice line with zero quantity records after printing the report.
