### **Installation Instructions and Cautions**

**PLEASE NOTE: SAGE 100 ERP** must already be installed on your system before installing any IIG enhancement. If not already done, perform your SAGE 100 ERP installation and setup now; then allow any updating to be accomplished automatically. Once SAGE 100 ERP installation and file updating is complete, you may install your IIG enhancement product by following the procedure below.

#### Wait! Before You Install - Do You Use CUSTOM OFFICE?

**THIS IS AN IMPORTANT CAUTION:** If you have Custom Office installed, **and** if you have modified any SAGE 100 ERP screens, you must run **Customizer Update** after you do an enhancement installation.

But wait! BEFORE you run Customizer Update, it is very important that you print all of your tab lists. Running Customizer Update will clear all Tab settings; your printed tab list will help you to reset your Tabs in Customizer Update. Custom Office is installed on your system if there is an asterisk in the title bar of some of the screens. The asterisk indicates that the screen has been changed.

Ň	攝 * Sales Order Entry (111) 06/12/2006						
	Order Number	Q.	🛃 💽 🔇				
	<u>1</u> . Header	<u>2</u> . Address	<u>3</u> . Lines	3	<u>4</u> . Totals		
	Order Date		Orde	r Type			
	Customer No.		9. <u>E1</u>				
				<u>Ship To</u>			
				<u>Terms (</u>			
	Chin Data			l – Shin Vi	a		

An *asterisk* in a window's title bar indicates that the screen has been modified. This means that **Custom Office** is installed.

Follow all the instructions on this page before you run **Customizer Update**!

#### **Registering IIG products**

IIG Enhancement should be registered to be able to use it. If registration is not performed, the enhancement will work in a demo mode for a limited time period. The registration can be still done during the demo period.

Select the **IIG Product Registration** program under the **Library Master Setup** menu of the SAGE 100 ERP.

If this option is not listed under the Library Master Setup menu, go to the main menu, and select **Run** from the **File** menu. Type in SVIIGR and click **OK**.

Enter **Serial Number** and **Unlocking Key** provided by IIG, and click **OK**.

If multiple IIG Enhancements are installed, Serial Numbers and Unlocking Keys should be entered for each enhancement.

Use the **Print Registration Form** button to print IIG Registration Form.

#### **ODBC Security**

After installing an **IIG Enhancement**; it is **very important to verify** whether or not the **Enable ODBC Security within Role Maintenance** check box is selected in the **System Configuration** window of your system. If it is selected you must assign ODBC security permissions and allow access to custom data tables/fields for the Roles defined in your system.

ODBC Security
 Enable ODBC Security within Role Maintenance

#### Role Maintenance

After installing an **IIG Enhancement**, permissions must be configured for newly created Tasks and Security Events.

### Introduction

The **Order / Pick Ticket Spoolers** enhancement enables printing Sales Orders and Pick Tickets automatically from the spooler programs.

Only Standard and Back Orders can be printed from the spooler programs.

For Picking Sheets, Comment, Miscellaneous, Special item lines will be printed.

The **Pick Ticket Spooler** does not print pick sheets for orders **On Hold**. They can be printed only manually with the standard **Picking Sheet Printing** program.

The **Pick Ticket Spooler** does not print orders that are expired or unauthorized, irrespective of the setting on the **Picking Sheet Printing** screen.

Note: When running the Spooler programs for the first time in a Company the Template Selection screen is opened allowing the user to select the form template to be used for printing. 6

#### Pick Ticket Spooler

Select the **Pick Ticket Spooler** program under the **Sales Order Reports** menu.

Form Code STAN Description Plain	DARD		<u>D</u> esigner
Number of Copies	1 Collated	Multi-Part Form Enabled	<u>M</u> ulti Part
Batch Date	08/29/2014	Average time to process	3
Batch Time	03:48 PM	Estimated time completed	0
Active Records	0	Actual Transaction Time	0
Order Number		Name	
Status			
Printer Last action:	Microsoft XPS Docu		
Printer	Microsoft XPS Docu		
Printer	Microsoft XPS Docu		
Printer	Microsoft XPS Docu		

Click the **Start** button to start processing active records. After these records are processed, the program will wait for new records and continue to process any new ones added to the spooler.

The **Last action** pane displays the description of the action last performed by the spooler. If there is an error (for

### Order / Pick Ticket Spoolers 5.10

example, an order is deleted or there are no printable lines), the error description is displayed.
