

# True Commerce EDI/ASN Link For MAS 90/200

457 Palm Drive Glendale, CA 91202 818-956-3744 818-956-3746 sales@iigservices.com

www.iigservices.com

Information in this document is subject to change without notice. No part of this document may be reproduced or transmitted in any form or by any means, electronic or mechanical, for any purpose without the express written consent of **Information Integration Group. Inc**.

#### TRADEMARKS

*MS-DOS* and *Windows* are trademarks of Microsoft Corporation.

MAS 90, MAS 90CS, MAS 90W and MAS 200 are registered trademarks of Sage Software, Inc.

True Commerce, True Commerce Integrator, and TC.NET are the registered trademarks of True Commerce, Inc.

All other product names and brand names are service marks, and/or trademarks or registered trademarks of their respective companies.

#### REQUIREMENTS

*True Commerce Integrator version 3.2 build 0010 (or above) AI Package with Labels.* 

MAS 90 (IIG).BSP version 0008 or above (supplied by True Commerce).

Bartender 7.0 Professional (usually supplied with Integrator).

Compatible Bar Code printer for ASN Labels. We highly recommend Zebra printers, but any compatible thermal label printer will do. Laser printers are also supported but not recommended for high volume.

Internet Connection. DSL or above recommended but not required.

Workstation hosting the Integrator must have a mapped drive to the MAS 90 folder.

### Installation Instructions and Cautions

**PLEASE NOTE: MAS 90** must already be installed on your system before installing any IIG enhancement. If not already done, perform your MAS 90 installation and setup now; then allow any updating to be accomplished automatically.

Once MAS 90 installation and file updating is complete, you may install your IIG enhancement product by following the procedure below.

### Wait! Before You Install - Do You Use CUSTOM OFFICE?

**THIS IS AN IMPORTANT CAUTION:** If you have Custom Office installed, and if you have modified any MAS 90 screens, you must run Customizer Update after you do an enhancement installation.

But wait! BEFORE you run Customizer Update, it is very important that you print all of your tab lists. Running Customizer Update will clear all Tab settings; your printed tab list will help you to reset your Tabs in Customizer Update.

**Custom Office** is installed on your system if there is an asterisk in the title bar of some of the screens. The asterisk indicates that the screen has been changed.

_	•					
Ġ	🚡 * Sales Orde	r Entry (111) 06	6/12/2006			
	Order Number	Q	🛃 💽 🤆		D []]	
	<u>1</u> . Header	<u>2</u> . Address	<u>3</u> . Line:	s ]	<u>4</u> . Tota	als
	Order Date	`		r Type		
	Customer No.		9. <u>E 1</u>			
				Ship T		

An *asterisk* in a window's title bar indicates that the screen has been modified. This means that **Custom Office** is installed.

Follow all the instructions on this page before you run **Customizer Update**!

### **Registering IIG products**

IIG Enhancement should be registered to be able to use it. If registration is not performed, the enhancement will work in a demo mode for a limited time period. The registration can be still done during the demo period.

Select the **IIG Product Registration** program under the **Library Master Setup** menu of the MAS 90.

If this option is not listed under the Library Master Setup menu, go to the main menu, and select **Run** from the **File** menu. Type in SVIIGR and click **OK**.

🚮 IIG Master Developer	r Enhancement Regist	ration			? _ 🗆 🗙

IIG Enhancement Name	4.20		۵۵۵۵۵۵۵۵۵۵	AAAA BBBB	BB
Print Registration Form					
Print Registration Form					
				lig	ABC 5/29/2007

Enter **Serial Number** and **Unlocking Key** provided by IIG, and click **OK**.

If multiple IIG Enhancements are installed, Serial Numbers and Unlocking Keys should be entered for each enhancement.

Use the **Print Registration Form** button to print IIG Registration Form.

### **ODBC Security**

After installing an **IIG Enhancement**; it is **very important to verify** whether or not the **Enable ODBC Security within Role Maintenance** check box is selected in the **System Configuration** window of your system. If it is selected you must assign ODBC security permissions and allow access to custom data tables/fields for the Roles defined in your system.

### Setting up EDI Maestro for True Commerce

After installing the IIG True Commerce EDI Integration Enhancement, you will need to set up the **IIG True Commerce EDI Options**, added under the **Sales Order Setup** menu.

<b>1</b>	攝 IIG True Commerce EDI Options (ABC) 1/24/2008					
_			- UCC Setup			
	Company EDI Identifier	EDI_ID	UCC Qualifier	55		
	Factoring?		Company UCC Code	550000		
	Sales Order Default Prefix	ED	Package Indicator	5		
	Next Default EDI Sales Order No.	00029	Next UCC Carton Number	00000005		
	Next ASN Number	00000035	Next UCC Serial Number	(55) 5 0550000 000000005 0		
	Enable TSA					
Ē	Export Directories					
	810/856 Export Directory	\\Simon\Simon_D\Mas4	20\TSA\MAS90\TC_OUT\			
	Backup Out Directory	\\Simon\Simon_D\Mas4	20\TSA\MAS90\TC_BO\			

Company EDI Identifier:	This is the normal company identifier that True Commerce will use. Normally, it will be "12" plus your main telephone number. If not specified, the <b>IIG True Commerce Invoice Export</b> will not be available.
Factoring?	This will be enabled if IIG Factoring module is installed.
Sales Order Default Prefix:	This is the default prefix to separate EDI orders from your normal order sequence. You may enter "00" to force the system to use all seven digits as a normal sales order number.
Next Default EDI Sales Ord	ler No.: This will be the next sales order number to use.
810/856 Export Directory:	This is the directory, <u>on the <b>MAS 90</b> Server</u> that the invoices will be exported to for the <b>True Commerce</b> <b>Integrator</b> to import from. The default directory used will be the TC_OUT directory.

6

**Backup Out Directory:** This is the directory that Ship To addresses and Inventory Items (if the **IIG UPC** module is installed) will be exported to in the format that the **True Commerce Integrator** will be expecting. The default directory used will be the TC\_BO directory.

For both of the **Directory** fields above you can click on the button to locate the folder on the server.

TIG True Commerce EDI Options (A	BC) 1/24/2008		X
Company EDI Identifier	EDI_ID	UCC Qualifier	55
Factoring?		Company UCC Code	550000
Sales Order Default Prefix	ED	Package Indicator	5
Next Default EDI Sales Order No.	00029	Next UCC Carton Number	00000005
Next ASN Number	00000035	Next UCC Serial Number	(55) 5 0550000 000000005 0
Enable TSA			
Export Directories			
810/856 Export Directory	\\Simon\Simon_D\M	las420\TSA\MAS90\TC_OUT\	
Backup Out Directory	\\Simon\Simon_D\M	as420\TS, Directory where the 810 data will be put into	)/856 Invoice Export( Advance Ship Notice )
			Accept

Highlight the directory you wish to use, and the program will load the full path for the **MAS 90** Server:

The **Enable TSA** check box has been added to the **IIG True Commerce EDI Options** screen. If that check box is not selected, the following message box is displayed when opening the **IIG True Commerce ASN Export** program under the **Sales Order Main** menu.

👫 Sage	2 MA5 90	×
⚠	Setup indicates that this option is not available on your system.	

After selecting the Enable TSA check box, the Next ASN Number, UCC Qualifier, Company UCC Code, Package

Indicator, Next UCC Carton Number and Next UCC Serial Number fields will become visible.

### Setting Up True Commerce for EDI Maestro

#### Start True Commerce Integrator:

Remove Files From Archive that are More Than 60 📩 Days Old	
Directory:	
C:\test370\MAS90\TC_ARC\ Change	
Import File Selection Import All Files in Directory	
<u> </u>	

Click on the **Change...** button next to the **Import Directory** field to change it to the TC\_OUT folder under the MAS90 folder. Remember that you must actually click on the TC\_OUT folder to select it.

Click on the Use File Archiving check box to turn it on. We suggest that you set the **Remove Files From Archive that are More Than** to **60 Days** or greater.

Click on the **Change...** button next to the **Directory** field (under Archive File After Importing) to change it to the TC\_ARC folder under the MAS90 folder. Remember that you must actually click on the TC\_ARC folder to select it.

**Import File Selection** must be set to <u>Import All Files in</u> <u>Directory</u>.

Click on the **OK** button to save these settings.

**Note:** These settings are what is required for the IIG True Commerce Integration. There are additional steps in setting up True Commerce, which are covered in the True

Commerce documentation. Setting up Bartender and communications are covered in those manuals.

### Setting Up EDI Customers in MAS 90

Now, go to **A/R Customer Maintenance**, and add or select your EDI customer, which will be your trading partner. In the example below we are using Bed Bath and Beyond.

	intenance (ABC) 1/24/2008 2-ALLENAP	
	2:ALLENAP	Copy From Renumber
<u>1</u> . Main	2. Additional 3. Statistics 4. Summary 5	5. History <u>6</u> . Invoices <u>7</u> . Transactions <u>8</u> . S/Os
Address	18026 E. 10th	Terms Code         02         Q         2% Ten Days, Net 30 Days           Primary Contact         JEFF ALLEN         Q         Jeff Allen
ZIP Code	92875	Ship Code     MAIL       Primary Ship To     Q

EDI Customer?					
Send C/M?					
Send D/M?					
Factored?					
Requires ASN?					
Vendor Number	123456789				
Sales Order Prefix	ED				
Next EDI SO Number	00029				
Ship-To =>				Accept	<u>C</u> ancel

**EDI Customer?** 

Check to activate this customer as a Trading Partner.

Send C/M?	Check to send credit memos. <u>Please note that this is</u> trading partner specific.
Send D/M?	Check to send Debit Memos. As with Credit Memos, this will be trading partner specific.
Factored?	If enabled, indicates that this account is selectable for factoring.
Requires ASN?	Check to activate this customer as ASN customer. Note: The <b>Requires ASN</b> ? check box will not be visible if the <b>Enable TSA</b> check box is not selected in <b>IIG True</b> <b>Commerce EDI Options</b> .
Vendor Number:	Enter your vendor number with this trading partner.
Sales Order Prefix:	Enter the prefix that will be used for this trading partner.
Next EDI SO Number:	Enter the next EDI sales order number for this account. The system will check A/R history to insure that the system does not duplicate order numbers. Default starting is 00001.
Ship-To => Button	Click on this button to display the <b>Ship-To Addresses Export</b> screen.

#### Ship-To Addresses Export

M	Ship to	o Addres	ses Export				? _ 🗆 🗙
	Custom	ner No.	02-ALLENAP	Name	Allen's Appliance Repair		
	Directo	ry to Expo	rt \\Simon\Sim	on_D\Mas420	\TSA\MAS90\TC_BO↓		<b>(</b>
	Code	Name			Address1	Address2	City
	001	BED BA	TH & BEYOND #0	D1	18026 E. 10th	Rear Building	Fountair
	•						
	•						
						Export All Export	<u>C</u> ancel

There are two ways to export. You may select a range of addresses (up to about 200) and click on the **Export** button. Due to the limitations of Windows, if you need to export more than that, you must select the **Export All** button.

To select a range, select and highlight the first record of the range. Then, scroll down until you reach the end of the range you are interested in. Holding down the Shift Key, click on the ending address code. The system will highlight the range, and then you can click on the **Export** button to export the addresses.

The program will export the addresses into a CSV file into the directory specified in the **Directory** field.

The name of the file will be the customer name, in the TC\_BO directory:

🗁 C:\TC_BO		
<u>File E</u> dit <u>V</u> iew F <u>a</u> vorites	<u>T</u> ools	Help 🥂
🕞 Back 🝷 🕥 🚽 🏂 🍃	🔵 Sea	arch 😥 Folders 🛛 🔢 🗸
Address TC_BO		💌 🔁 Go
		Name 🔺
File and Folder Tasks	×	BED BATH & BEYOND #001 stores.csv
Other Places	×	
Details	*	

Once you have exported the Ship-To Addresses, then click **OK**. Then click **Accept** for the Customer information.

### Exporting Items for Integrator

You can export the items for the selected customer to have the Translation used in the Integrator.

# In the **Customer Maintenance** program, select the Customer:

Customer No. 02	ntenance (ABC) 1/24/2008 ALLENAP	Copy From Renumber Ship To •

Under **Item Data Translation**, there are two options:

Export Transactions	This option covers how <b>Integrator</b> will <u>export</u> the item information to <b>MAS 90.</b> Translations are done using Item Number, UPC Number, Description, and optionally the trading partner's SKU.
Imported Transactions	This option covers how <b>Integrator</b> will <u>import</u> item information from <b>MAS 90</b> . Translations are done using Item Number, UPC Number, or the item description. <i>Note: UPC numbers are required by</i> <i>most trading partners</i> .

Under **Addresses**, there are two options:

Edit Multiple Store List	This option allows maintenance (and importing) of the Store List. In <b>MAS 90</b> , this is invariably the Customer Ship-To Addresses. As such, we created the Ship-To Addresses Export tool under <b>IIG True</b> <b>Commerce EDI Customer Options</b> ,
Edit Dist Center List	As with the Edit Multiple Store List, this allows maintenance and importing of the Distribution Center information. The distribution center is also almost always in the Customer Ship-To Address

file. This allows for generating labels for shipping to the distribution center, but marking for specific stores.

Edit Lookup Tables...

This option allows setting the defaults for this trading partner. We will start here.

First, click on Edit Lookup Tables,

😥 Bed Bath and Beyond	×
-Lookup Tables	
Ship Via Code Translation Warehouse Translation Sales Tax Code Translation Ship To Code Conversion	
	Open
Defaults	
Division Number Ship Via Code Warehouse Sales Tax Code Terms Code Salesperson ID Confirm To Name	•
	Open
	Close

Select Division Number under <u>Defaults</u> and click the Open button.

Bed Bath and Beyond Default		
Division #		
50		
<u> </u>	<u>C</u> ancel	Help

Enter the Division Number for this customer. This would be 50 in the example we are using (50-BED001). If you are not using division numbers, then enter 00 as the division.

Click the OK button to save.

The remaining Defaults fields:

Ship Via Code Warehouse Sales Tax Code Terms Code Salesperson ID Confirm to Name Tax Exemption Number Vendor Number

These fields can all be left blank, as the information for them will be defaulted from the customer information in MAS 90. Any value placed in these Defaults Fields will override the default values from the customer master file.

Click the Close button to save these changes.

•			Þ
File <u>n</u> ame:		<u></u> t	ben
Files of type:	Import File (*.csv)	▼ Ca	ncel

Click on the TC\_BO folder and find the trading partner Ship-To addresses you exported.

Stores Backu	p File							<u>?</u> ×
Look jn: 🔂	TC_BO			•	<b>←</b> Ē	D 📥	<b>∷∷</b> ▼	
BE & B PR	CUREMENT C	COMPANY sto	res.csv					
 File <u>n</u> ame:							<u>0</u> pe	n
Files of type:	Import File (*	'.csv)			•		Canc	el

Select the file you wish to import and click the **Open** button. <u>The import is very fast!</u>

*Note: The CSV file produced by the Ship Via Addresses Export tool has a very specific format.* 

If you choose to open the file in Excel, we recommend you change the suffix from ".csv" to ".txt" which will force Excel to ask you questions about the fields it is trying to import. It is **very** important that you force Excel to treat all of the fields as TEXT fields, so it does not try to format the fields for you. At the minimum, Excel will trash the telephone number and Ship-To code fields, which will make the import unusable unless you take these precautions.

The **Edit Distribution Center List** is virtually identical to the **Edit Multiple Store List**, except that you are only importing the Distribution Centers. After importing the stores, then use the Ship-To Address Export Tool to select only the distribution centers and export. You can then import using the **Backup In** button.

#### **Item Data Translation**

Click on the **Exported Transactions** button, which will then request the type of transaction:

Export Item Information			×

Add	Delete	Clear List Backup Out	Backup In

As with the store lists:

Add	Used to manually add a row to the list for entry.
Delete	You must first select a row or rows to delete.
Import	Does not work with MAS 90.
<b>Clear List</b>	Clears the entire list. Good for when you want to import everything.
Backup Out	Exports the list as a CSV file.
Backup In	Used to import the Item/UPC List from MAS 90,
OK Cancel Help	Accepts and saves the changes. Cancels any changes. Any changes you made are gone. On line help for this screen.

The critical columns are the **Translation** and **User Item ID** fields. These are:

Translation Either the UPC number or the vendor SKU.User Item ID Your MAS 90 item number. It must be EXACTLY as you have it in MAS 90.

This is what **Integrator** uses to translate the trading partner PO to your item numbers.

You must do the same with the **Imported Transactions** button.

Import Item Information	J
Available Transactions for Bed Bath and Beyond	
Invoice Ship Notice/Manifest - Pick and Pack Ship Notice/Manifest - Standard	
<u> </u>	

Select **Invoice** and click the **OK** button.

Bed Bath and Beyond Invoice Impor	rt Item Information	×
Override Translation		
UPC#		
Partner Item #		
Description		
,		
	<u> </u>	<u>l</u> elp

Click on the **Translation** Tab.

	UPC#	Partner Item #	Description
125-QC	761479573401		QUICK CHOP RETAIL
141-PFC6	761479860112		PERFECT COOKIE 6
210-HHMIRROR	761479160052		HANDY HOOK MIRR
370-FLIPRET	761479515661		FLIP FOLD RETAIL
800-TT2	761479650126		TURBIE TWIST 2 PACK

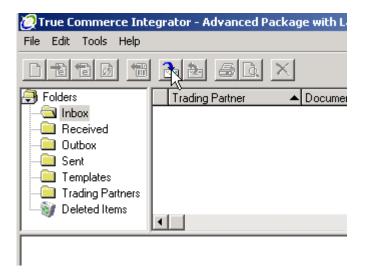

**Integrator** uses the **UPC#** to cross reference the item numbers, and will fall back on the description if it can't match on **User Item ID**. So these three fields are critical to the system loading the invoice (810 document) from **MAS 90**.

Once you have loaded all of the items, then **Integrator** can import the invoices from **MAS 90**. Click the **OK** button to save any changes.

#### Exporting Purchase Orders from Integrator

**Note:** True Commerce supplies an excellent manual on the normal operations of **Integrator**. We will not duplicate that here. We are including a quick overview here only for illustration.

Start **Integrator**, and click on the **Get Transactions** button to download any new transactions from your trading partners.

Transactions, such as purchase orders, will first appear in the **Inbox** folder.

#### Importing Orders in MAS 90

Now, change over to (or run) MAS 90.

# Select **True Commerce Order Import** from the **Sales Order Main** menu.

🖥 IIG True Comme	rce Sales Order Import (ABC)	1/24/2008	×
Process Cycle	Manual	Log to file?	
Scan Cycle Units	Seconds 💌	Detail Logging?	
Coop quale period		Use Imported Price?	
Scan cycle period		Add New Ship-To?	
File Trigger Suffix	CSV	Trigger Integrator?	
Input Directory	\\Simon\Simon_D\Mas420\TSA\}	_	
Output Directory	\\Simon\Simon_D\Mas420\TSA\I	MAS90\TC_ARC\	
Path to Integrator	K:\Program Files\True Commerce\	Integrator\	
·		(	Start

Process Cycle Manual Automatic	Manual or Automatic. In this mode, the program will scan the import directory and process all files with the correct file trigger suffix and then exit. In this mode, the program will scan the input directory at regular intervals. The interval is controlled by the Scan Cycle Units and Scan cycle period, which are available only in this mode.
Scan Cycle Units	Seconds, Minutes, or Hours. Available in Automatic mode only.
Scan Cycle Period	Number of Scan Cycle Units (1 to 99) to wait before scanning.
File Trigger Suffix	The file extension that identifies a file for the program to process. Not case sensitive. TXT, txt, and Txt are valid.
Log to File?	The program will create a text log file in the MAS90\HOME directory. All files processed and errors are logged.
Detail Logging?	This option will record all actions by the import program.

Use Imported Price	Will use the price from the purchase order, instead of the customer's <b>MAS 90</b> price.
Add New Ship To?	Adds new Ship-To address if not in the customer's Ship-To file.
Input Directory	Directory to scan for purchase orders to import.
Output Directory	Directory where imported purchase order import files are moved to when they successfully import. Import files that have errors will remain in the input directory with an ".ERR" suffix.
Path to Integrator	path of the Integrator.
Trigger Integrator?	If Manual type is specified in the <b>Process Cycle</b> field, this check box will be disabled.
Start button	Begin scanning the input directory.
<u>Note:</u>	In the Automatic mode, to terminate the program from scanning, you must click on the X in the upper right hand corner of the screen. The program will then run the Import Log printing.

Once the True Commerce Order Import finishes importing, the Sales Order Import Log will start.

🚮 TCE 850 Sa	les Order Import Log	<u>? ×</u>

#### Importing Invoices into Integrator

Switch to or start Integrator, and select the Outbox folder.

**Integrator** will then import the invoice transactions from **MAS 90**. Any warnings or errors will be shown in the Information window.

If **Integrator** shows a Stop Sign, that transaction will require correcting one or more fields.

In this example, the **Address** tab is highlighted in **Red**.

Invoice									
Main Items Shipping Addresses Allowances Misc. EDI									
Partner Name Bed Bath and Beyond									
Invoice Information									
Inv. # 0068734 Inv. Date 5/20/2003									
P0 # 6176947 P0 Date									
Totals									
Total of Line Items 630									
Other charges 0									
Total Amount 630									
OK Cancel									

This must be corrected before **Integrator** will allow you to send this Invoice.

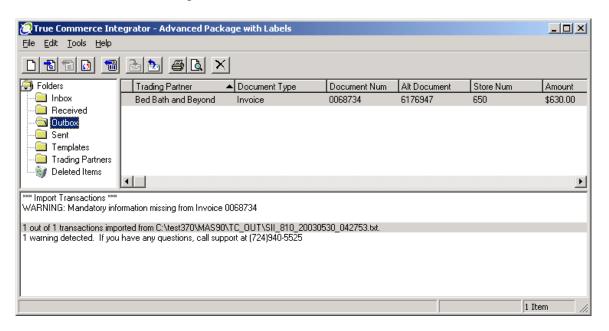

Click on the highlighted tab.

Invoice	
Main Items Shipping Addresses Allowances Misc. EDI	
Buying Party Store	
Name DIRECT	
Code	
In the Code please enter the 3 digit Bed Bath and Beyond Store number.	
OK Cancel	

The required field that must be filled in is highlighted. Enter the missing value. As soon as the missing value is entered, the highlight is removed and the problem is corrected.

I	nvoice	
	Main	Items Shipping Addresses Allowances Misc. EDI
	Buying	g Party Store
	Name	DIRECT
	Code	650
		In the Code please enter the 3 digit Bed Bath and Beyond Store number.
		OK Cancel

Click **OK** to save the changes.

Now the Invoice is ready to send. You can also use this invoice to generate an ASN and labels. Please see the True Commerce manual on how this is done.

That's all there is to it!

### **ASN Processing (Advance Ship Notice)**

#### IIG True Commerce ASN (856) Export

The **IIG True Commerce ASN (856) Export** program has been added to the **Sales Order Main** menu to enable **ASN** functionality in the **True Commerce EDI Link.** 

Note: This program will not work if the **Enable TSA** check box is not selected in **IIG True Commerce EDI Options**.

### **Batch Invoice Transfer Utility**

The Batch Invoice Transfer Utility program has been added under Sales Order Shipping to allow moving an Invoice from one batch to another.

🚰 Batch Invoice Transfer						<u> </u>
Batch Invoice Transfer           Batch "From"         00010           Invoice         Inv Date         Customer No         Name         Inv Total           0100096         06/28/06         01-ABF         American B         429.00           0100097         06/28/06         01-ABF         American B         429.00           0100097         06/28/06         01-ABF         American B         0.00           0100109         06/23/06         01-ABF         American B         .00           0100102         06/30/06         01-ABF         American B         .00           0100107         06/30/06         01-ABF         American B         .00		Batch "T Invoice 0100110 0100144	o" 00015	Customer No 02-ATOZ	Name A To Z Car American B	X

Select a line in the first greed then click the **Copy** button to move it to the second one.

### Glossary

810	Invoice document. Your billing to the trading partner.
832	Catalog document. Required by some trading partners, this
	is an electronic catalog of what you have to sell.
850	Purchase Order from your trading partner, it becomes a
	Sales Order in your system. If you send it to a trading
	partner, it is a Purchase Order from your system.
856	Advance Ship Notice. Used to advise the trading partner of
	product shipped and on the way.
ASN	Advance Ship Notice. Also 856 Document.
<b>Bar Code Printer</b>	Machine (usually a thermal printer) used to print ASN and
	Shipping Labels. Required by most trading partners for
	scanning and legibility.
Bartender	Bartender Bar Coding program from Seagull Scientific.
	Used to generate the labels for Integrator.
BSP	Business System Plug-in. The interface between Integrator
	and MAS 90.
Integrator	The user interface for the True Commerce EDI. This is
C	what you receive the transactions though and send from.
TC.NET	The Value Added Network used by Integrator.
ТСЕ	True Commerce EDI. Our module code for this
	enhancement.
VAN	Value Added Network. How EDI transactions are sent and
	received.
Vendor Compliance Labels	Another phrase by trading partners for ASN and packaging
· · · · · · · · · · · · · · · · · · ·	labels. Printed by the Bartender software.
